

## MSocSci Heritage and Cultural Sciences Heritage Conservation (Coursework)

---

### **Programme code**

01253120

This programme is directed at a general education in preventive conservation/preservation and general collections-based management of tangible cultural heritage (TCH) resources, with a view to specialise in the management of TCH, preservation of TCH or conservation of TCH.

The programme is offered over two years of which the first year is presented on the Hatfield Campus. All modules must be passed to progress to the second year of the programme on the Hatfield Campus or carried out under supervision in a partner institution or under supervision in private practice.

Students are required to attend relevant departmental seminars as well as local conferences to present aspects of their research project. A poster presentation of their research report is strongly recommended. Students must conduct 5-6 months of conservation or collections-based research by the end of the master's programme and demonstrate mastery over basic conservation techniques.

The MSocSci (Tangible Heritage Conservation) by coursework can be completed in segments as part of continuing professional development.

For more information, please consult the Faculty webpage.
